ThermaDog-T2.1.0.0

**INTECOG**

Real-Time Temperature monitoring system to improve operational efficiency in Cold storage chambers, Cooling towers and Reactors.

1 Do you want to avoid spoilage of goods due to human error or power failure or compressor failure in HVAC system?

2 Do you want to have peace of mind with the ability to remotely monitor condition of your goods from anywhere in the world in real-time?

3 Do you want to access complete history of temperature data of the goods for regulatory compliance or to gain customer confidence?

ThermaDog meets all of these needs. It is a robust device for real-time remote temperature monitoring that sends instant alerts in case of any abnormal temperature conditions.

⭐ KEY FEATURES

Instant alerts

Get following SMS and/or email alerts instantly:

1. High temperature.
2. Low temperature.

Real-time Tracking

ThermaDog measures temperature and sends data periodically to the app.

Access Data Anytime

Access following historic data in pdf format (compliant with FDA's 21 CFR Part 11) and graphical formats from the app.

1. Temperature data
2. alerts

Built by the finest engineers from **IITs and NITs** in our **award-winning startup.**

Secure **API integration** for device data transfer to your software.

Unlimited warranty, prompt support

Customized features & simplified UI

Flexible pricing: Pay per use

Sensor calibration certification from NABL accredited laboratory can be provided.

TECHNICAL SPECIFICATIONS

Temperature Sensing	−150°C to +400 °C , +/-0.5 °C
Dimensions (L x W x H)	122 x 73 x 40 mm
Weight	100g
Water proof rating	IPx5
Battery Backup	15 days at 25 deg C when data interval is configured to be 15 mins.

INTECOG is your Trusted Partner for all your Asset condition monitoring needs. Don't let your goods go to waste. Sleep peacefully while ThermaDog guards your assets.
